About Us

Leading the way in private healthcare trends, Care Hospital offers optimum and affordable medical services. With modern amenities and highly trained doctors and nurses, making quality private healthcare more accessible and efficient for patients. Moreover, rate structures are transparent and comparatively lower than the standard model for private healthcare. The hospital may be smaller in comparison to other private hospitals but the concept behind its simplicity leads the way towards healthcare trends in the future -> efficient, accessible and cost-effective. As such, its objective is to provide communities with effective healthcare at excellent value, and to be the preferred choice for families and businesses.

Ophthalmology

Ophthalmology is the practice of medical and surgical care of the eyes and any issues related to vision. Our Ophthalmology department deals with the anatomy, physiology and diseases of the eye such as blepharitis, conjunctivitis, dry eye syndrome, cataracts, diabetic retinopathy, macular degeneration and retinal detachment.

Services that our Care Hospital offer includes:

- Eye examinations and other basic services such as prescriptions of glasses or contact lens
- Diagnosis, consultation and treatment of eye conditions related to diseases such as diabetes
- Medical care and treatment for the eyes such as glaucoma
- Surgical care and treatment for the eyes such as crossed eyes and cataracts
- Diagnosis, consultation and treatment of retina related conditions

Neurology

Neurology is the branch of medicine concerned with the study, diagnosis and treatment of disorders related to the nervous system affecting the brain, spinal cord, nerves and other neural elements such as eyes, ears skin and other Sensory Receptors.

Some of the commonly encountered conditions treated by neurologists include:

- Headaches
- Stroke
- Stroke
- Neuromuscular Diseases
- Alzheimer's Disease
- Parkinson's Disease

Cardiology

Cardiology is a branch of medicine that deals with disorders of the heart and the cardiovascular system. These diseases include coronary artery disease, heart rhythm problems, and heart failure. Non-invasive cardiology service focus on the detection and treatment of heart disease, using external tests

Services that our Care Hospital offer includes:

- Cardiac Risk Assessment & Treatment
- Coronary Angiogram
- Coronary CT
- MR Angiography
- Coronary Angioplasty
- Diagnosing and Treatment of Heart Disease for Adults

Urology

Urology is the branch of surgery specializing in diseases and disorders of the human urinary tract, kidneys and the male reproductive organs. Among the many urinary diseases and disorders are kidney stones, urolithiasis, painful bladder syndrome and urinal tract infections (UTIs).

Services that our Care Hospital offers to treat conditions:

- Urination; urinary tract infections (UTIs)
- Hematuria
- Blood in the urine
- Incontinence
- Male infertility
- Erectile dysfunction and ejaculatory problems

Orthopedics

Orthopedic surgery or orthopedics, is the branch of surgery concerned with conditions involving the musculoskeletal system. Orthopedic surgeons use both surgical and nonsurgical means to treat musculoskeletal trauma, spine diseases, sports injuries, degenerative diseases, infections, tumors, and congenital disorders.

Medical and surgical treatment that our Care Hospital offers:

- Joint replacement surgeries of the hip, knee and shoulder joints
- Arthroscopic surgeries of various joints
- Ligament injuries and sports injuries
- Limb reconstruction, micro-vascular and hand surgery
- Correction of deformities of upper and lower limbs

Login Page

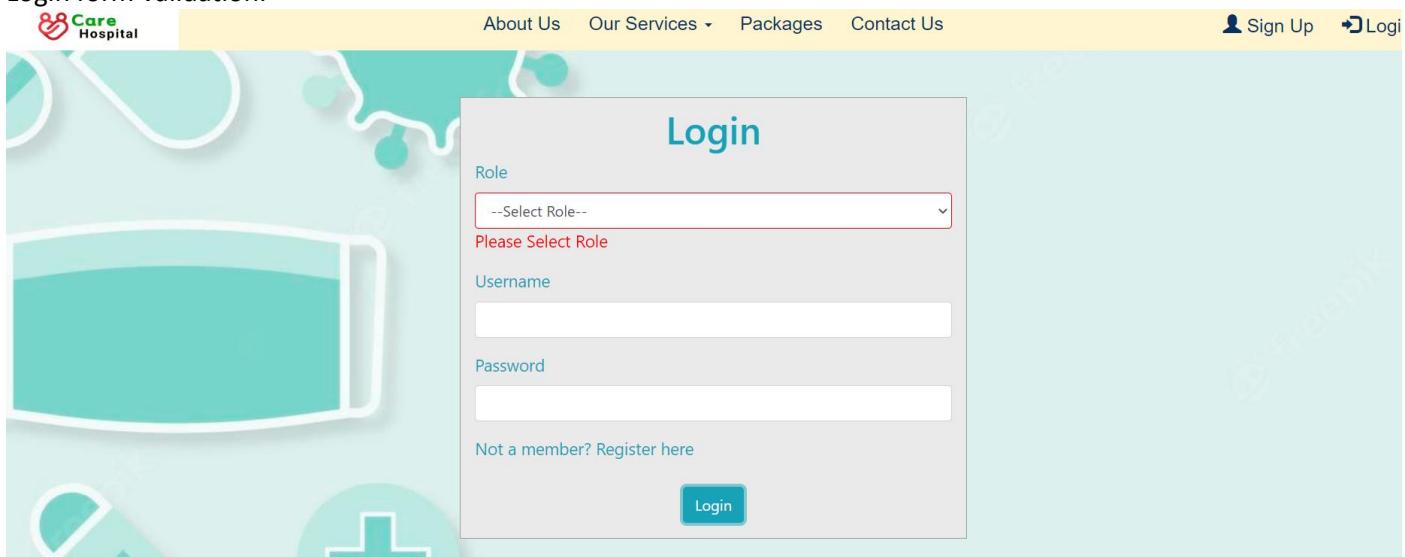

The screenshot shows the Care Hospital login page. At the top, there is a navigation bar with links for About Us, Our Services, Packages, and Contact Us. On the right side of the navigation bar are 'Sign Up' and 'Login' buttons. The main content area features a light pink background with a large green cross icon. A central 'Login' form is displayed, containing fields for 'Role' (a dropdown menu showing '--Select Role--'), 'Username' (an input field), 'Password' (an input field), and a link 'Not a member? Register here'. A blue 'Login' button is at the bottom of the form.

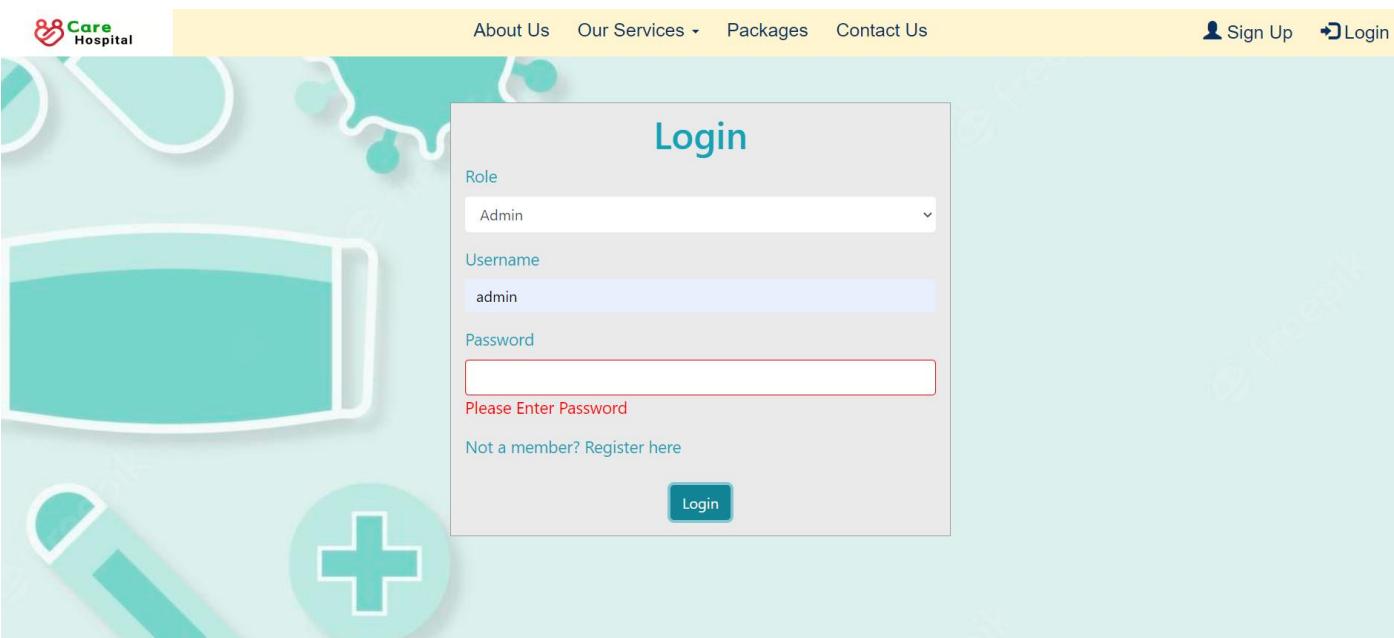

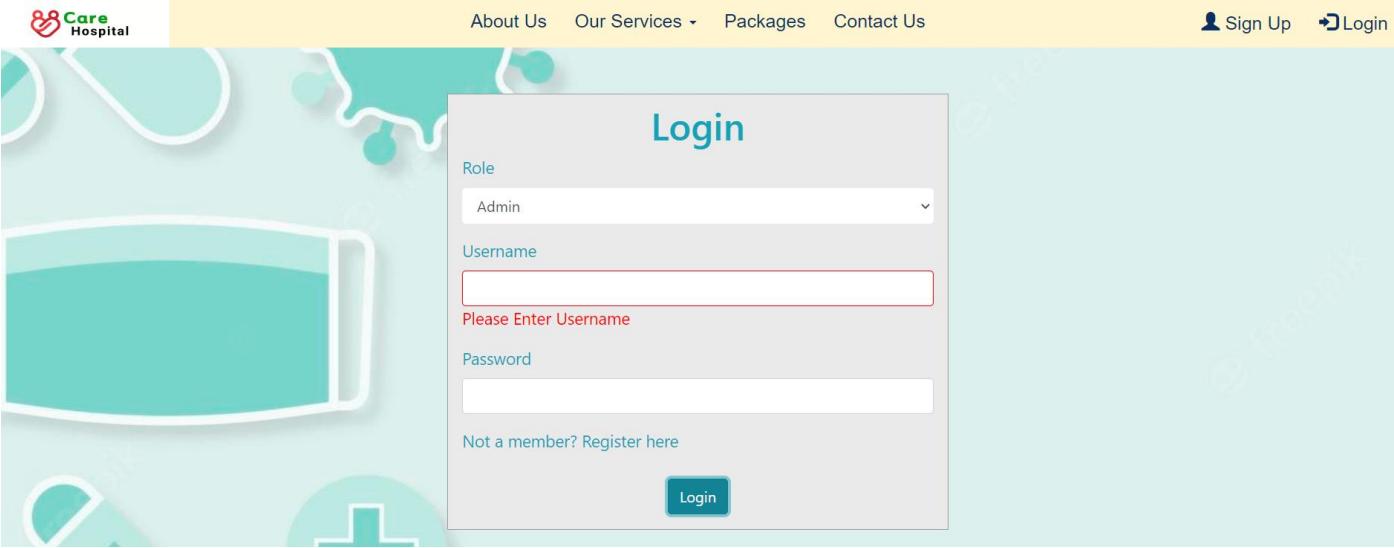

This screenshot is identical to the one above, but the 'Role' dropdown menu is now open, showing three options: Admin, Doctor, and Patient. The rest of the interface remains the same, including the navigation bar, background image, and the 'Login' form below.

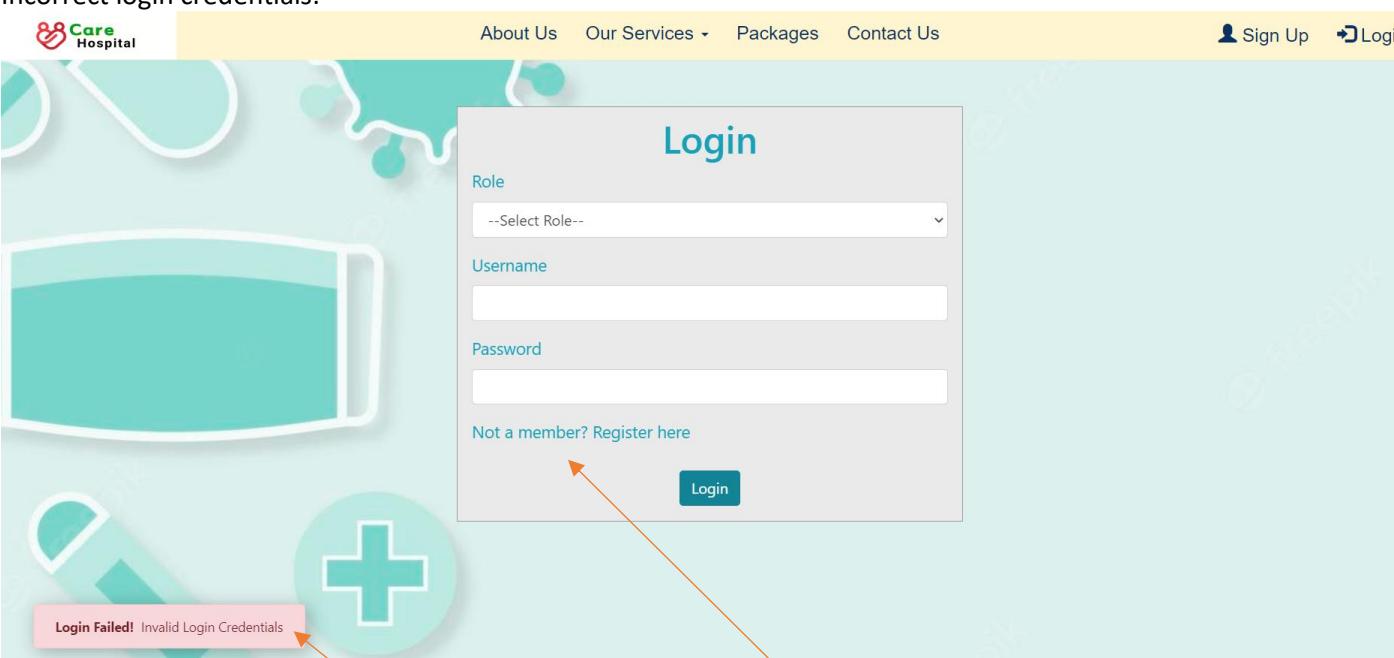

Login form validation:

This screenshot shows the login form after attempting to submit without selecting a role. The 'Role' dropdown is highlighted with a red border, and a red validation message 'Please Select Role' is displayed above it. The other fields (Username and Password) are empty and appear normal. The rest of the page, including the navigation bar and background, remains consistent with the previous screenshots.

Incorrect login credentials:
